Emergency and Exit Lighting Products, Inc.

Make EELP your next stop for emergency lighting or exit signs.

Emergency and Exit Lighting Products, Inc. (EELP) manufactures commercial, industrial, and residential emergency and exit lighting products. EELP takes pride in their products.

EELP offers many innovative designs and the choices for [emergency lighting](#) and [exit sign](#) fixtures and their accessories for almost any application.

Life safety equipment requires 100% dependability and reliability. All EELP products are manufactured with UL Listed components under stringent quality control measures to meet this need. Every product is tested before leaving the factory to ensure it will operate properly in the field.

EELP pledges to provide quality manufactured products. All of our products have been designed to include features to make the installation simple. EELP will continue to design and manufacture new products every year to meet the changing codes and designs of emergency and exit lighting.
